

You must first be logged into your account and registered to bid on desired sale

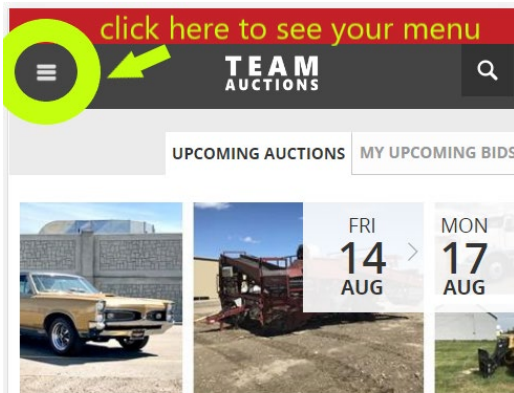

Go to your desired sale and click

LOTS. Please note you will not be able to bid on item until the sale is open.

DESCRIPTION

You can place a max bid

We have an Auto Max Bid System. Your bid will only go up if someone bids against you. Note here the bid is at \$10 but the bidders max is \$50

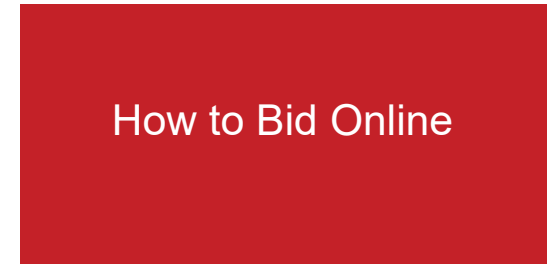

If you are outbid. It will show like this. This means you have to bid again or you will not get the item, because you bid \$40 and the current bid is \$50, someone else is on at \$50.

Instant outbidding means someone else has a max bid and the computer is auto bidding for them.

This means someone had a Max Bid placed at that bid price before you, the computer will take bids on a first come first serve basis, Please bid one more time and you will likely be winning bidder!
