

SERVICE

IS OUR PRIMARY FOCUS

North Spirit Lake Lodge has been owned and operated by the Nelson family since 1974. Your hosts are Bill and Valerie Nelson, owners of the lodge. Service to our guests is our primary focus. It begins the first time we have the pleasure of meeting you. Perhaps that's why we have a year-to-year return rate of nearly 75% and a 5-year return rate over 90%.

We offer 2 plans for our guests at North Spirit Lake Lodge. The American Plan is for the guest who wants to enjoy all the services we provide. The Housekeeping plan is for the rugged individual who likes to do it all himself/herself. Refer to the accompanying Plan and Rate sheet for details. If you prefer to customize your plan, just ask your hosts Bill and Valerie Nelson for assistance.

We offer satellite phone service in the main lodge as well as satellite television for that game you just can't miss.

From our well maintained boats, motors, guide service, cabins, and support facilities, to the housekeeping staff and excellent meals prepared by our lodge cook (American plan), all efforts are aimed at making your visit exceed all expectations. We invite you to come and fish with us!

FISHING

WALLEYE, NORTHERN PIKE, LAKE TROUT, TROPHIES
North Spirit Lake Lodge is the only fishing resort on the entire lake system and only accessible by air. There are hundreds of square miles of pristine water made up of multiple lakes and rivers, accessible to 28 guests per week. As a result, the fishing at North Spirit Lake Lodge for Walleye, Northern Pike and Lake Trout is excellent! North Spirit Lake Lodge is truly a trophy destination.

Our guests fish in comfort and style from a fleet of 16', 18' and 20' Alumarine boats. Each boat is equipped with swivel seats, nets, paddles and all safety equipment required. Housekeeping boats are 16' alumarine with 20 hp Yamaha 4-stroke outboards. American Plan Boats are 18' and 20' powered by 50, 60 and 70 hp Yamaha Outboards. Boats are furnished with a well stocked shore lunch kit every morning before departure. To help our guests succeed, we also provide some of the finest guides in the northern Canadian wilderness. A fully equipped, lakefront fish cleaning house makes it easy for our housekeeping guests to fillet the fish for dinner that evening or package it for the trip back home.

Perhaps your photo will grace our next brochure!

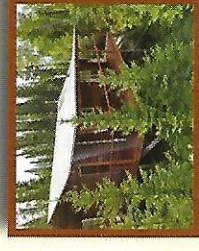

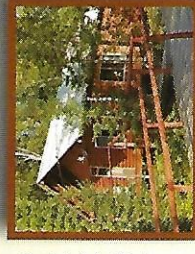

LODGING

COZY, CLEAN, CONVENIENT, CLASSIC

The Nelson family takes pride in the cabins of North Spirit Lake Lodge. All 6 cabins are built of rustic logs in the classic northwoods tradition and offer beautiful views of the bay. They are very clean and fully equipped with the conveniences of home in a manner not always found in remote fishing camps. Cabins feature electricity, hot and cold running water, a sink, refrigerator, private bathroom with a shower, flush toilet, towels, and sink. All cabins are equipped with oil heaters, sheets and warm blankets to keep our guests warm and cozy even on the coolest of Canadian nights.

All cabins have boardwalks to the main lodge and dock facilities. Our guests, while at the lodge, can access all facilities without walking over slippery rocks or muddy trails.

The main lodge has an expansive lounge area with a beautiful fieldstone fireplace and tackle shop, all under a massive cathedral ceiling. It's a great place to meet other guests and swap fishing stories after a day on some of the most amazing waters in Canada.
